

EOL-0008

OVERPRINT LACQUER FOR WATER LABEL

EOL-0008 is moisture resistant overprint lacquer for water labels .It suitable for rotogravure and flexo printing .

Product Name:Moisture Resistance Overprint Lacquer

Product Code :EOL-0008

Solid Content : 25+/-2

Printing Type :Rotogravür ve flekso

Production Viscosity :25-30 sec (DIN CUP 4 25 C)

Printing Viscosity : **Rotogravure** :16-18 sec (DIN CUP 4 25 C)

Flexo : 21-25 sn(DIN CUP 4 25 C)

Thinner: **Rotogravure** :50%Ethyl Acetate 50% Ethyl Alcohol

Flexo : 20%Ethyl Acetate 80% Ethyl Alcohol

Application Amount: 1-2 gr/m²

Usage Area: It is specially designed to be used in flat printing jobs requiring high moisture resistance. It also provides friction resistance and gloss to the printed surface.

Shelf Life : EOL-0008 Overprint Lacquer for water label is kept in airtight original packages for 1 year.

Note: The above information is based on our laboratory test results. Differences in application conditions may change the data. In this case, please contact our technical department.
